HS AND CN 2026 CODES FOR ITALIAN FOOD PRODUCTS

Checked on 8 November 2026 against the official text of the 2026 Combined Nomenclature, Commission Implementing Regulation (EU) 2025/1926. The HS code is the first six digits, the same in every country that uses the Harmonized System; the eight-digit CN code is the European Union's, and it goes on the export declaration. Customs has the final word on classification.

Group	Product	Chapter	HS code (6 digits)	CN 2026 code (8 digits)	Note
Wine	Prosecco PDO, sparkling	22	2204.10	2204 10 15	
Wine	Asti spumante PDO	22	2204.10	2204 10 91	
Wine	Other PDO sparkling wines (Franciacorta, Trento)	22	2204.10	2204 10 93	
Wine	Still white PDO wine from Veneto (Soave)	22	2204.21	2204 21 28	Still wines: bottles up to 2 litres, produced in the EU, up to 15% vol.

Other	Liqueurs (limoncello), bottles up to 2 litres	22	2208.70	2208 70 10	

The code depends on the product as it really is: ingredients, processing, packaging, alcohol content. If your product isn't identical to the line, work through the TARIC database again or ask your freight forwarder; when in doubt, customs issues binding tariff information, valid for three years.

Table produced by Itria from the 2026 Combined Nomenclature. How to find the code for a product that isn't listed here (page in Italian):
itria.io/codice-hs-prodotti-alimentari

Template built by Itria. Not an official form. Have your freight forwarder or accountant check it before you use it.

If you redo this by hand for every order, an AI agent can do it from the data you already have and leave it for a person to approve. A couple of lines on WhatsApp to +39 350 574 3578 or an email to info@itria.io. How it works: itria.io/en/documenti-per-esportare-ai
