Company name	Azienda Agricola Esempio (made-up name)
Production site	Contrada Esempio, Puglia, Italy
Certifications	None in this example
Contact	Quality office, quality@example.com (example)

A worked example produced by Itria: the company, the brand and the figures are made up; the fields and the rules are real. Nutrition values are indicative, worked out per 100 ml with the oil at 0.916 kg per litre and the conversion factors in Annex XIV of Regulation (EU) No 1169/2011. On your own sheet, use the lab results for your batch.

Free example produced by Itria. It does not reproduce any official form or private standard. The blank template, and each field explained:

itria.io/en/modello-scheda-tecnica-prodotto-alimentare

Template built by Itria. Not an official form. Have your freight forwarder or accountant check it before you use it.

If you redo this by hand for every order, a system can do it from the data you already have and leave it for a person to approve. Itria builds that system: itria.io/en/contatto
